Samarium Cobalt Magnets  
(Rare Earth)

Sintered

Magnetic Assemblies

Magnetic Couplings

Machined Parts

**Are your magnets licensed?** Hitachi Metals patent laws require all companies buy licensed permanent magnets. Buying non-licensed magnets can lead to company exposure, very expensive penalties, and confiscated orders. We only sell licensed magnets and provide certification.

**Interested in consignment?** This is a great solution for best pricing, reduced lead times (materials in stock), and extended payment terms to match material usage.
